A memorable experience and high-performance treatments thanks to the flawless efficacy of Nescens cosmeceuticals.

NESCENS COSMECEUTICAL TREATMENTS

Formulated under the supervision of Professor Jacques Proust, Nescens products offer a rejuvenating beauty-aging approach. Each preparation contains selected ingredients with scientifically proven properties.

To achieve the highest degree of efficacy, these active ingredients are incorporated at optimum concentrations.

TECHNOLOGY SERVING THE SKIN

Nescens combines its scientific skin-related expertise with the use of the Tesla Med ionic flux and microcurrent emission generator.

Objectives: Deep cleansing of the skin, microlifting of the face and eyelids, brightening of the complexion, treatment of dark circles, puffiness and acne scars.

LIFTING RENOVATING CARE

After an initial nanodermabrasion step, the skin regains its radiance, pores are tightened and blemishes or other imperfections are reduced. Ionic flows combined with microcurrents remodel the face and eyelids, deeply toning the tissues. The treatment continues with the application of the Nescens lipid-replenishing mask, ideal for soothing and moisturizing the skin. In the 1h30 option, the treatment is rounded off with the comforting and soothing Nescens signature facial massage.
